Shipments of plants should be made by express, though to near-by places the goods will go safely by freight. We beg leave to say, however, we assume no responsibility whatever for safe delivery of plants by freight, and the goods travel solely at buyers' risk.

Kindly notify us if goods are not received promptly. Claims will not be considered unless made within ten days after the receipt of goods.

Unknown correspondents, desiring to open an account with us, will please send a satisfactory reference, otherwise cash must accompany the order.

Columbian Mammoth
White Asparagus.
We have received from the introducers seed of this valuable novelty, which is described as “A entirely new and magnificent variety of asparagus, which is sure to be in great demand because it furnishes white shoots which stay white as long as fit for use, without earthing up or any other artificial blanching, and because it can be absolutely depended on to give 80 to 90 per cent. of white plants from seed. This grand novelty has been brought to its present state of perfection by one of the largest and most experienced growers of asparagus in this country, by many years of careful selection from a single plant found in one of his fields of Conover’s Colossal. To-day he has a field of the Columbian Mammoth White from which he sells the product to a canning factory, that allows him over 20 per cent. more for it than for any other kind grown for them. There is no question but this is the greatest advance in asparagus improvement since the introduction of the Conover’s Colossal.
Per pkt. 15 cts.; oz. 50 cts.; ½ lb. $1.75; lb. $6.00.

Black Seeded Simpson.
This variety forms a much larger head than the early curled Simpson; it is much lighter in color, forming a large, thin and very tender leaf. It is the best of the curled varieties for forcing and is used to a considerable extent for this purpose. It is also an excellent summer lettuce for out-door planting.
Per oz. 15 cts.; ½ lb. 40 cts.; per lb. $1.50.
Silver Ball Lettuce
This is one of the best all-the-year-round Lettuces we know of. It is an excellent variety, as well for early spring and summer use as for winter forcing. The heads are silvery white, very firm and compact, with beautifully curled leaves. It is of fine quality, very tender and crisp, and does not soon run to seed. Per oz. 15 cts.; ½ lb. 40 cts.; per lb. $1.50.

Hittinger’s Belmont Forcing Lettuce.
A great improvement on the old Boston Market or Tennis Ball Lettuce, originated and perfected by Messrs. Hittinger Brothers of Belmont, Mass., extensive growers of lettuce under glass. It is larger in size than the old varieties, with well formed heads of remarkably crisp and tender quality, most desirable for forcing. Per oz. 20 cts.; ½ lb. 60 cts.; lb. $2.00.

Big Boston Lettuce.
This variety is also an improvement on the Boston Market which it resembles in color, shape and general appearance but is different in size. It is about one week later in maturing, but its solidity and greater size of head will make it a most valuable sort. A grand variety for forcing or open ground. **Dreer's Eureka Extra Early Pea.**

The earliest and most productive pea. We have repeatedly tested our claim for its earliness on our trial grounds, in comparison with other leading early varieties. It has never been less than four, and frequently more than ten days earlier. In habit, quality, purity and productiveness, it is the most desirable sort. For the market gardener they lack no important feature. It grows twenty inches high, and free from runners. The crop can be gathered in two pickings.

Qt. 25 cts.; pk. $1.00; bus. $4.00.

**Heroine Pea.**

This new, medium early pea comes in between Advancer and Champion of England, and bears a profusion of large, long, slightly curved, pointed pods, containing from 9 to 10 large peas of finest quality. It is an improvement on Stratagem and Pride of the Market, and is destined to eclipse these varieties.

Per qt. 40 cts.; per pk. $3.00.

**Shropshire Hero Pea.**

This grand new pea is a second early wrinkled variety, growing about 3 feet high, producing long, handsome, well-filled pods in great abundance. The peas are of large size and exquisite flavor. It was one of the best in our trial grounds last summer.

Per qt. 40 cts.; pk. $2.75; bus. $10.00.

**The Stanley Pea.**

This delicious new pea is the sweetest in existence. It is a cross with American Wonder and Telephone, and inherits the delicacy of these fine varieties. When seen growing with other sorts, it is conspicuous for its uncommonly large foliage, its strong stocky vine and the abundance of its fine large pods. In rich soil it grows about eighteen inches high, bearing pods four inches in length. It is a tremendous cropper and ripens its pods very evenly, so that nearly the entire crop may be taken at one picking.

Per qt. 40 cts.; pk. $3.00.

**Cardinal Globe Radish.**

We can safely recommend this sort as being of first quality in all respects for forcing. Of globular shape and brilliant red color, with short top, and especially adapted for forcing, as it will stand a large amount of heat without becoming pithy; flesh tender, crisp, and in quality all that can be desired.

Per oz. 10 cts.; ½ lb. 25 cts.; per lb. 80 cts.

**White-Tipped Scarlet Gem Radish.**

A new and excellent variety for forcing, with very short leaves, bright scarlet, with a clearly defined white tip, giving it a very attractive appearance when bunched for market. It is a quick grower, tender and crisp.

Per oz. 10 cts.; ½ lb. 20 cts.; per lb. 60 cts.

**Dreer’s Scarlet Frame Radish.**

One of the earliest and best of the Turnip varieties for forcing; very short-leaved; small top; color of skin dark red, white-fleshed, with very small tap root.

Per oz. 10 cts.; ½ lb. 25 cts.; per lb. 75 cts.

**Zitter’s Selected White Box Radish.**

A perfectly round, white variety, free from any sharpness or bitterness, and the quickest of the white sorts.

Per oz. 10 cts.; ½ lb. 30 cts.; per lb. $1.00.
Early Forcing

Fireball Radish.

One of the finest forcing Radishes yet offered. Of rapid growth and extremely small top. Brilliant scarlet color, crisp, tender, and of mild flavor. Useful only as a forcing variety or for early spring use. Per oz. 10 cts.; ¼ lb. 25 cts.; per lb. 70 cts.

Olive-Shaped Golden Yellow Radish.

A new very early yellow Radish, adapted for forcing and the open ground. It is of attractive shape, crisp, tender, maturing in about twenty days. Per oz. 10 cts.; ¼ lb. 30 cts.; per lb. $1.00.

Parsley
Half Curled.

This variety is largely grown by market gardeners. The plant is of dwarf habit, with dark green leaves, finely cut and beautifully curled. Per oz. 10 cts.; ¼ lb. 25 cts.; per lb. 75 cts.

Spinach, Long Standing.

The very best variety obtainable for spring sowing. It will stand ten days longer than any other variety before running to seed. The leaves are round, curled and produced in great abundance, and are remarkably succulent, thick and fleshy.

20 cts. per lb.; 10 lbs. $1.75; $6.00 per bus.

Tomato, Long-Keeper.

This excellent variety has proved in our experimental grounds to be one of the best and a desirable acquisition. The fruit is of medium size and shapely form. It is remarkably solid and a long keeper; of a deep pink color, entirely distinct; very suitable for slicing and a good solid Tomato.

Per oz. 25 cts.; ¼ lb. 75 cts.; lb. $2.25.

Tomato.

The Stone.

This fine variety has fully sustained the claim of its introducer to be the nearest to perfection of any yet produced. In our trials last summer it proved to have all the good qualities claimed for it. The fruit is very large, deep and solid, of a bright scarlet color, very smooth, ripening evenly to the stem without a crack.

Per oz. 30 cts.; ¼ lb. 80 cts.; lb. $2.50. Selected stock from first fruits, per oz. 35 cts.; ¼ lb. $1.00; lb. $3.50.

Atlantic Prize.

This Tomato proved identical with the Early Ruby in our trial grounds. It has been grown for several years by some of the most successful market gardeners of Atlantic County, N. J., who have invariably had their fruit in market two weeks ahead of all competitors. A peculiar feature of this variety is the open habit of the plant, which spreads out on all sides, exposing the fruit in a cluster in the centre, enabling the sun to reach and ripen them quicker than other varieties.

Per oz. 30 cts.; ¼ lb. 80 cts.; lb. $2.50.

Selected Paragon.

We are quite confident that no better strain of an "all round" Tomato exists than the selection we are offering. It is early, a heavy bearer and produces fruit until killed by frost. The Tomatoes ripen evenly, are very solid, in flavor all that can be desired. For canners, market gardeners and family use it will be found indispensable.

Per oz. 30 cts.; ¼ lb. 80 cts.; lb. $3.00.

The Lorillard.

One of the best for forcing under glass. It sets freely, four or five fruit to a bunch, all of equal and good size, and a vermilion-scarlet color.

Per oz. 25 cts.; ¼ lb. 75 cts.; lb. $2.25.

FLOWER SEEDS.

This is a very important branch of our business, to which we have always given the closest attention. Our constant aim is to procure the very best strains obtainable, both of home and foreign growth, and we spare no pains or expense with this object in view. We call especial attention to our choice strains of Asters, Cineraria, Calceolaria, Gloxinia, Panay, Petunia, Primula and Verbena, which are acknowledged by leading growers to be superior in all respects. Our trade packets contain a liberal supply; where smaller quantities are wanted, buyers can select from retail catalogue at a discount of one-third, excepting Novelties, on which we can only allow 25 per cent.

Half trade packets can be supplied only where noted.

Dreer's Superb Asters.

Spikes of this flower have been cut with stems forty-five inches long and with trusses one and a half inches in circumference and with eight inches of perfect bloom. We offer the seed in sealed packets containing about 100 seeds, as put up by the originator, at 50 cts. per pkt.

TUBEROUS-ROOTED BEGONIAS.

The strain of Tuberoius-Rooted Begonias we offer is too well known to require lengthy description. Suffice it to say that we have used the same care with this as in the previous seasons, to select only such varieties as are adapted to our climate and certain to give satisfactory results. The bulbs are of good size, well-ripened and first-class in every respect.

The prices are as low as is consistent with good quality; the retail florist who is growing a few hundred bulbs for his spring trade, to sell over the counter in bloom, will find many of the cheap indifferent strains now offered dear at any price. We offer but one quality, and that is the best.

FOUR GRAND CANNAS.

Of the many new varieties introduced during the past few years, the four here offered are without exception the grandest and finest. All are of large size, of rich and distinct colors, and of strong, vigorous habit.

With the exception of Mme. Crozy, which has been distributed very largely last season, the other varieties, on account of the high price asked for them last season and to the scarcity of the stock, were sent out only in limited numbers, and will, at the prices we now quote them, prove a paying investment, as the demand is certain to be very great.

Alphonse Bouvier.

This is, at all points considered, probably the finest variety yet introduced. It is a remarkably luxuriant and free grower, in rich ground attaining a height of six to seven feet. In color it is of a rich brilliant crimson, almost approaching scarlet when it first opens, changing to a deep dazzling crimson as the flower fully develops. It has a peculiar habit of dropping the flower cluster at one as the second flowering shoot begins to push above the first, and the shoots flower three or four times in succession, a large plant frequently having as many as thirty or forty of the large brilliant clusters of flowers at one time; the foliage is of a rich deep green color.

Price, 60 cts. each; $6.00 per doz.; $50.00 per 100. Ready now.

Captaine

P. de Suzzoni.

The finest yellow spotted variety yet introduced. Its flowers are very large, with broad rounded petals produced in large spikes; the ground color is of a rich canary yellow, while the entire flower is spotted with cinnamon red in such a manner as to intensify the yellow. Its habit of growth is entirely distinct from all others, the foliage being similar to that of the Abyssinian Banana, and of a light green color; it attains a height of 5 to 5½ feet.

Price, 75 cts. each; $7.50 per doz.; $60.00 per 100. Ready March 15.

Paul Marquant.

Another grand variety and one of the most pleasing and beautiful on account of its large size, and entirely distinct and novel color. The flowers, which are larger than in any other variety, stand out from the spike separately in such a manner as to attract special attention. Its color, which is difficult to describe and which is frequently compared in softness to an Orchid, is of a bright salmon scarlet passing to a rosy carmine, with a peculiar silvery lustre which lights up the salmon very brightly; the foliage is of a dark green, and its habit very dwarf, growing from 3 to 3½ feet high.

Price, 75 cts. each; $7.50 per doz.; $60.00 per 100. Ready March 15th.

Madame Crozy.

This variety is now so well known that it seems unnecessary to offer any description of it. Many similar seedlings are continually offered as improvements, but among all we have seen or tried it stands without an equal in its type. We were the first to offer this Canna in this country during the fall of 1890, and we know of no other plant of which such a large quantity was distributed, that gave such universal satisfaction.

Our stock this season is very large, which enables us to offer it at a low price. 20 cents each; $2.00 per dozen; $15.00 per 100. Ready now.

New Yellow Canna—Nellie Bowden.

A variety of American origin that comes very highly recommended. We give the introducer's description not having had the opportunity of testing it on our own grounds. "Fine bright yellow flowers; having a touch of orange in the throat, flowers borne in immense clusters and very free flowering; foliage rich green." 3 feet. 75 cents each; $8.00 per dozen.
New Dwarf French Cannas.

Admiral Gervais. Somewhat in the style of Mme. Crozy. The individual flower is not quite so large, but shows considerable more yellow in its markings; it is of much dwarfer habit, never exceeding 3 feet in height.

Chas. Henderson. One of the best introductions of the season. A remarkably strong bushy grower, forming fine compact plants of symmetrical shape, with bright green foliage, flowers large, of a rich crimson with satiny surface, petals well rounded and of good substance. 2½ feet.

Comtesse L’Estoile. Another grand spotted yellow variety and well worthy of extended trial. The flowers are of very large size, of a bright canary yellow, evenly and regularly spotted throughout with bright cinnamon red spots, foliage bright green, habit of plant good, producing plants of uniform shape; probably the best in this type. 3 feet.

Devil de St. Grevy. A grand acquisition. Flowers of good size, with well rounded heavy petals of the most intense rich orange scarlet, foliage bronzy purple, very effective. 4½ feet.

Explorateur Crampbel. Flowers of good size, borne in large heads and thrown well above the foliage; its color is a bright orange crimson with deep crimson markings; foliage green. 4 feet.

Egandale. Flowers of a fair size, of a currant red color, compact spike, bronzy purple foliage. 4 feet.

J. D. Cabos. Flowers of large size, of a peculiar shade of orange shaded capticine; foliage of rich deep purple. 4½ feet.

75 cents each; the set of 14 varieties, one of each, for $10.00.

General Collection of Dwarf French Cannas.

New Variegated Fern.

Pteris Victoria.

A most remarkable and beautifully variegated Pteris, and undoubtedly one of the most striking and desirable Ferns of recent introduction. The foliage is neatly divided, the sterile fronds being much wider than the fertile ones, thus giving the plant a most chaste and lovely appearance. The fronds are of a rich green color with beautiful silvery white variegation. 2½ inch pots, $1.25 per dozen; $10.00 per 100.

Micropleia Hirta Cristata.

This variety, though introduced about fifteen years since, is always scarce. We have now succeeded in filling a large stock of it, which enables us to offer it at a price which will make it profitable for the florist to lay in a stock of it and grow on into specimen plants. We know of no other Fern that will grow into profit so quickly. Small plants from three inch pots planted into ten or twelve inch seed pans, will make handsome specimens in less than six months that can be readily retailed at $3.00 each, and will at the same time give the retail buyer more satisfaction than almost any other variety with any kind of care. We offer strong 3 inch pots, $1.50 per dozen; $12.00 per 100.
FERNS—Continued.

Adiantum Farleyense.

A beautiful greenhouse plant and a most valuable plant for planting against the pillars in a cool greenhouse, where it will grow luxuriantly, and produce its masses of waxy white Jasmine-like flowers in the greatest profusion, about Easter. They are most valuable in making up bouquets or cut flower designs, and the plants occupy but little valuable space.

We offer extra strong 5 inch pots 50 cents each; $5.00 per dozen.

ROSES.

New Rose—American Belle.

A pink colored sport from the American Beauty, and probably one of the greatest acquisitions to the Rose family in many years. It has been repeatedly exhibited at the various Exhibitions during the past season at Philadelphia, Boston, New York, etc., at all of which it was awarded the highest honors. It is entirely distinct from American Beauty both in foliage and color, of a rich deep pink when first opening, which changes to a handsome light pink as the flower develops. It possesses the same delightful fragrance peculiar to its parent, and is equally free in habit of bloom. Strong young plants ready April 15th. 75 cents each; $7.50 per dozen; $60.00 per 100.

NEW ROSE—KAISERIN

AUGUSTA VICTORIA.

One of the most promising introductions of the season. The flowers are of large size, full, and produced in the greatest profusion, of a creamy white color, shading deeper towards the centre. It is a strong, healthy grower, with fine foliage, and will undoubtedly take a foremost place as a rose for forcing for cut flowers. Price, $4.50 per dozen; $35.00 per 100, strong 3-inch pots.
